Local Wilson County Child Fatality Prevention Team

To meet requirements of the Agreement Addenda with Children and Youth Branch of the Division of Public Health and health department accreditation, Lynn Anders, CFPT Chairperson, and Sandra Bowling, CFPT Review Coordinator, viewed a three-part CFPT Orientation Training Webinar.

The three-part webinar was available to local CFPT members as a valuable tool for refresher training on CFPT policy, procedures, membership, effective meetings and the role of the membership.

The Wilson County CFPT remains dedicated to the thorough review of deaths of children 0 to 18 years of age to determine system problems, recommend ways/means to prevent child deaths and actions to be taken by the team to carry out the teams' recommendations.
